Consider, then, the defense of your freedom of speech and the defense of your freedom to worship. Consider, then, that freedom of the press is not necessarily a freedom in America today. Although the press in this nation is relatively free from the controls that exist in communist countries, yet the control of the press by large syndicates and private enterprises ensures that certain editorial policies and certain political viewpoints are the only ones that are voiced in certain newspapers.

The Preservation of the Four Sacred Freedoms

Keep That Flame of Liberty Blazing over the Earth!

Part 3

But I must come forth to warn you of the days ahead, of crisis in America and of further attempts to divide and conquer the members of this sacred company.

Consider, then, the defense of your freedom of speech and the defense of your freedom to worship. Consider, then, that freedom of the press is not necessarily a freedom in America today. Although the press in this nation is relatively free from the controls that exist in communist countries, yet the control of the press by large syndicates and private enterprises ensures that certain editorial policies and certain political viewpoints are the only ones that are voiced in certain newspapers.

You will find that there has been a movement during the past century to put the newspapers and the media in the hands of the certain few, who then control the thinking of those in many cities. You will find that all is not the pure and the unbiased, as some would like to think. And yet there is greater freedom here than anywhere.

I say, then, in the name of the Christ: *Roll* back the abuses of the freedom of speech, the freedom to worship, and the freedom of the press! Let that guarantee be for the right to assemble—the fourth of the sacred freedoms! Let it be *burned*, now, into the very soil and into the very heart of America!

Precious ones, when you are denied the right to assemble, you are denied the unity of your Christ flame! For the fallen ones know that in union—in the union of decrees and the spoken Word and in the union of hearts one in the flame of divine love—there is the victory of the Aquarian age!

Do you realize that in Rio de Janeiro today, if you are going to host a party you must first register that party with the dictatorship? Do you realize that you must have permission to have a group of people in your home, that you must state the reason for that group, and if there are any political connotations, you are denied that right?

Do you realize how in many nations the churches are state controlled? The protestant churches of Europe—many are state controlled. And therefore any attempt to insert anything but the standard teachings of the Protestant revolt¹ is put down and turned back.

Do you not understand that were you to go out and attempt to establish a movement such as this one in almost any other nation, the carnal mind would move in a much greater dimension than that which you are faced with even here and now?

I come, then, to erect the four sacred freedoms as four pillars of fire and of the flame of freedom within your four lower bodies!

I *demand* and I *command*, in the name of the Christ, that the flame of freedom shall now seal in every heart and in the consciousness of these Keepers of the Flame here and throughout the world the true matrix of freedom of speech,

freedom to worship, freedom of the press, and freedom to assemble. So let it be, for without these sacred freedoms the planet is doomed.

I say this as I level with you about my assessment of world conditions. I say, then, that there has gone forth a design from the heart of the Goddess of Liberty for the torch of freedom, the flame of liberty, and the image of the Divine Mother to once again be impressed upon a medallion of light so that you might have that image and that focus in your hand for the regeneration of the divine economy.²

Therefore under my direction, as I have pledged my flame of freedom to the Goddess of Liberty (the spokesman for the Karmic Board), there has been released and delivered into our hands this day that medallion of light that is for the celebration of the two-hundredth anniversary of the freedom of this nation, of the Declaration of Independence.

I choose to make this announcement this day in order to counteract all condemnation of the fallen ones and the Liar and his lie so that you might know that hierarchy is very much involved in the economy of this nation!

I have stood forth in Keepers of the Flame meetings! I have given dictations, and you have read the dictation of Orion, the Old Man of the Hills!³ You have received the warning of the imminent collapse of the economy and of the need to convert to a system of the divine flow of supply and demand!

I say, therefore: Where else but in the heart of the ascended masters' activity should we initiate our spiral of victory and of the vision and of the light of the Divine Mother for the transformation of this economic system, these Luciferian controls, the infiltration of the Federal Reserve and the control and the spawning of that octopus over America through the Federal Reserve banks?

I say, O beloved ones, lift up your hearts and see that the

most vital decrees you can give are those that are concerned with the economy of your life and of your life's energies. This nation could be destroyed tomorrow simply by the decision of the few elite, the economic advisers, and those who control the wealth of a nation.

Precious hearts, nothing is so precarious in this hour as the economy of this nation, which spells the destiny of the economy of all nations. Therefore let it be according to your free will whether or not you shall receive and take to your heart this image of the Goddess of Liberty. Let it be according to your freedom. But I have spoken! I have set my seal! And the Goddess of Liberty once again has taken this coin as the focus of the flame of liberty for the moving [forward of] mankind and in an attempt to make the transition into a golden age.

All hangs in the balance! You have looked for prophecy. You have looked for revelation. You have said to our messenger, "How long? How long is opportunity? When is cataclysm? When will this and that happen?"

The ascended masters do not know. The messengers do not know. And we are not making predictions. For all hangs in the balance, and the balance is the scales of Libra. And so the final twenty-five-year cycle of the century is in the light of Libra as the light of the Holy Spirit, as the light of the cloven tongues of fire.

The balance is delicate. If you have ever worked with a balance scale, you will notice that a feather will tip the scales. You will notice that a ripple of irritation or of condemnation will tip the scales and cause you to be out of harmony with the light and with the Christ.

In the tipping of the scales there is a loss of light and energy and momentum, and then you find that for a mere triviality a battle is lost. For a mere expression of the ego or

a point of human stubbornness that will not give in, usually over a pea pod, so the entire line of cosmic beings must forfeit this energy, which is thereby assigned to the fallen ones, who are then given the very allotment of energy that should have passed in harmony from your hands to the people of light throughout the planetary body.

Do you understand that when you break your harmony, when you allow division, you prick the tube of light not only of yourself but of the entire organization? And so it is the leak in the dike that can overcome the unity of life.

Precious hearts, *you* are the founding fathers and mothers of the Aquarian age! Who else, I say? *You* live in the spirit of the Founding Fathers of this great nation! *You* are the ones who keep the flame! When you look at America, you see that there is not the unity in this land that there is here, in the unity of these enlightened souls. And you find in this nation those who are warring with one another, those who are divided on every religious and political and philosophical issue and who will fight one another, tooth and nail, for a worm or a fish hook.

Do you understand that it is in the unity of a nucleus of light that an entire age can be born?

Therefore, when we celebrate the two-hundredth anniversary of this nation, I pray that this celebration will be in that focus of light in the heart of America that is the focus of our retreat. And I pray that you will move in that direction to secure facilities for that focus that I have designated to the Mother of the Flame for the Freedom conference 1976.⁴

I pray, then, that you will join as never before—heart, head, and hand—in a pledge to Mighty Victory and to the Goddess of Liberty and that you will understand that the nucleus of lightbearers is all that we have for the preservation of America.

When we look outside of this circle of fire, we see that the misunderstandings, the compromise, and the self-will is too great. And we know that in the hour of testing and in the hour of the launching of the dark forces in their final attack upon this nation, those who have not come into that circle will not be able to withstand in that hour.

Do you understand how the hatreds of right- and left-wing politics have left even some of our best servants bereft of the protection that they ought to have because somehow in their self-righteousness they have considered that it is all right to hate the fallen ones or the dark ones?

Therefore, that which has become the extreme right, which should be the fulfillment of the spirit of patriotism, has become an anathema to my soul and to the flame of freedom! For in their hatred and their criticism and their condemnation, they no longer represent Saint Germain! They no longer represent the Goddess of Liberty! And so Morya has warned you not to take sides and not to be in the middle of the road, but to be where Truth is at all times!

Take care that you do not align yourself with those political movements that are seething with hatred and with condemnation, for these movements are vulnerable—vulnerable to the fallen ones! You know that the Luciferians, contrary to popular opinion, do not only use the Fidel Castros and the Brezhnevs and the Maos to achieve their ends. They use extremists in *every* camp. They set brother against brother, right against left, and those in the middle of the road are caught in the maelstrom, caught in the middle of the flinging of energies back and forth.

I say, then, by the power of the cosmic honor flame, let the exposure come forth! Let the exposure come forth! And if America is to be purged, let her be purged fully in this period of months remaining before the celebration

of the two-hundredth anniversary.

I say, watch as the Lords of Karma, out of necessity, make the announcement at the New Year's class of an increase of karma to this nation. For it must be for the purging and the cleansing, and that added momentum of darkness can just as easily be turned into light. As was spoken by Jesus, "My burden is light!"⁵

If the faithful and the Keepers of the Flame will increase that momentum of invocation to the fires of freedom, and if you will begin that momentum now so that the roller coaster of your decrees and light and movement will together be in such a movement and a motion, then come the first of the year that darkness that must be released will be caught up in a spiral of freedom and a flame of transmutation whereby you will hold the balance until the hour of the sealing of the light in victory.

I come not only with warning and with woe. I come with joy in my heart. For I rejoice to see the response of *your* hearts and *your* souls. I rejoice to see this day, when you have taken your stand for light and you have determined to be free. I rejoice! And my love is boundless for all that you have given.

I simply say, give more. Give more of your energy in invocations, and you will seal the planet in the flame of freedom for a golden age.

I look forward with you to the release of Arcturus and Victoria, of violet-flame dispensations for a smooth transition into the Aquarian age.⁶ Therefore I seal you in the flame of my heart as the Goddess of Liberty and Portia stand with me to deliver unto you the blessing of our hearts' love and of the flame of liberty.

Keepers of the Flame, keep that flame blazing over the earth!

I AM your Knight Commander! And I remain the master of Aquarian cycles, worlds without end.

"The Summit Lighthouse Sheds Its Radiance o'er All the World to Manifest as Pearls of Wisdom."

This previously unpublished dictation by **Saint Germain** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Saturday, October 12, 1974**, during *Voyages of Discovery*, held at the Biltmore Hotel, Los Angeles, California. [**N.B.** Bracketed words have been added for clarity in the written word.] Parts 1 and 2 of this *Pearl of Wisdom* are published in this volume, nos. 37 and 38. (1) The **Protestant revolt** refers to the Protestant Reformation, widely attributed to Martin Luther and his *Ninety-Five Theses* that were posted in 1517 at Wittenberg, Germany. Luther criticized the selling of indulgences (a way to reduce punishment for sins), because it indicated that the pope had authority over purgatory. Luther also disagreed with the teaching of honoring the saints, which was not founded in biblical teaching. (2) **Medallion of light**. For the celebration of the 200th anniversary of the United States—1776 to 1976—the federal government issued commemorative coins. Among the most impressive was a 3-inch gold disk showing the Statue of Liberty with her torch held high and rays of light streaming forth from it. (3) **Orion, the Old Man of the Hills**, a great patriot of light, works with Godfre and Saint Germain to expand the fires of freedom to the hearts of mankind. Orion has observed the wickedness in high places and has discoursed upon the subtle and nefarious plots of the forces of negation to undermine the world economy and to bring about ultimate bankruptcy through excessive control of prices and taxes, the exporting of America's gold, and the devaluation of the dollar. In his dictation of July 2, 1966, he said: "Precious ones of the light, you must understand that when a being such as I AM chooses to [speak] upon subjects which might seem somewhat foreign to a religious activity, I assure you that I am doing so only for the preservation of the eternal values, which will keep the fires of freedom burning in America and will cause the children of God here in America to be able to retain and keep their precious freedom. America is the land of freedom! . . . And if America goes down, I ask you, who shall hold the torch? . . . I assure you that decrees are necessary, and now!" (4) In celebration of the 200th anniversary of the nation, The Summit Lighthouse held its Freedom conference in Washington, D.C. The conference, *Higher Consciousness*, June 30 to July 4, 1976, was a magnificent feast of light with eighteen dictations and a number of lectures that focused on important aspects of freedom. On the day after the conference, in the joy of the flame of freedom, the messenger and attendees toured various monuments and government locations around the city, anchoring their light and freedom flame through giving songs and decrees in these places. (5) Matt. 11:30. (6) The Elohim of the Seventh Ray, **Arcturus and Victoria**, delivered their dictation "Violet Flame for a Smooth Transition into the Aquarian Age," on October 12, 1974. They said, "I AM come from out the Great Central Sun to deliver unto earth a mandate of light and a spiral of victory and of violet flame for

the transition into the Aquarian cycle. . . . Receive now the impetus of the one Source and of the central altar of the Most High God. Receive, then, grids and forcefields of cosmic energies necessary to the evolution of the souls of a planet and a people. So let light intensify cosmic creativity within mankind and let the forcefield in the heart of the earth be the blazing sun of invincible fire—let it flow! Let light flow! Let light flow! and let mankind come into a golden age of enlightenment, peace, and fulfillment in the flame of reality.” (For the complete dictation, see *Pearls of Wisdom*, vol 21, no. 17, April 23, 1978.)
