Beloved Elohim Arcturus

A Violet-Flame Christmas Tree

Light unto the Victory, I AM come! I AM Arcturus, Elohim of light and freedom!

I stand before the Altar of Invocation to summon Light to consume the Dark. After all, beloved ones, is this not what we are all about as we continue our service in the earth and in the far-off worlds?

The gift of the violet flame comes from light-years beyond this system, from spheres of light and evolutions of whom you have heard not a word, from cosmic beings and their embodied chelas who have perceived the need of this solar system and galaxy and therefore have sent emissaries of light, angels who have taken flight from their homes of light.

These angels are come into earth's atmosphere to amplify the Spirit of the Christ Mass. They are come into the earth to relieve the burden and the darkness of the momentums that have opposed Saint Germain and his service for centuries. For they know his name and they know it well, and they will stand to tell you this day of his majestic word that they have heard and of the mission that they have watched—the cosmic mission of the hierarch of the Aquarian age.

I come, then, with these legions of light to anchor the violet flame within the forcefield that you have provided. For Saint Germain has called for a violet-flame tree, and it is

a violet-flame tree that we see.¹ And thus we bow before your light and with our gratitude to the hearts and hands who have brought it into view in the physical octave.

We deposit our light of violet flame even as we once did before La Tourelle² in that little tree in the circle of light. Now we place our light of violet flame for a fortnight within this focus. Let it *blaze* and let it *raise* mankind! Let it be a fiery vortex that consumes *all* that is pitted against the Mother and her children in their delivery of the Word to earth's evolutions!

A Vigil of Violet Flame and Freedom

I AM come because I have heard your prayer and your plea to the hosts of the LORD, and I AM here in the full light of the Father, the Son, and the Holy Spirit. I bathe all light-bearers in that light. And I summon you to a vigil of violet flame and freedom, for there is much residue of the decade and of the century that must be consumed to make way for the coming of the Lord of the World and the thoughtform for the year and the keynote of the decade.³

Beloved hearts of light, I draw the design of a mighty figure-eight flow of violet flame over the pillar of fire centered within the majestic tree.

O Tannenbaum, O Tree of Life, O mighty tree, O three-fold flame, let us remember that man is like a tree, and the soul that ascends to thee does become first the flowering and then the full fruit of the Word.

So it is the season of the flowering of cosmic consciousness in so many of the sons and daughters of God. And the fruit will yet come forth for all mankind, that they might understand and assimilate the Word that we have given.

Freedom Is the Keynote of the Age

I stand in your midst with legions of light. We come, then, and we make the call that the violet flame will remove

the wall of density and darkness and all that separates God from man.

O violet flame, blaze forth!

O violet flame, blaze forth!

O light of God that never fails, blaze forth!

Blaze forth the light of God that never fails!

I AM Arcturus, and I bathe each child of light within that violet flame. For earth must move forward in her appointed round and destiny, and that fiery destiny must manifest because freedom is the keynote of the age.

So many places upon the earth are dark spots in the feasts of charity.⁴ These dark spots are an absence of freedom through the absolute tyranny of the fallen ones, who come in many disguises with their wares to subjugate the souls and stifle the mighty threefold flame.

I AM in the flame of Victoria,* a Mother light of freedom. Let it resound throughout the earth! I AM come to you, my blessed hearts. I AM come to bring the fire of freedom. Let it be multiplied! Let it be delivered to all nations, as the heart of Saint Germain cherishes the Mission Amethyst Jewel!⁵

Freedom, in its explosion of light, offends many who are comfortable in their bondage. And others who hold others in bondage are also offended by freedom. Therefore those who are the torchbearers of freedom, my beloved, they come. They come and they must drink of violet flame, that they might be infilled with that sacred fire. And therefore be God-willed and be God-determined to go forth and to consume, rather than receive, the opposition to their light.

Let the violet flame expand in the heart of every chela of Saint Germain. Let the Keepers of the Flame expand this Christmas light. For the birth of the Manchild of the Aquarian age is of a seventh-ray being of light. That seventh-ray being of light, who comes in the name of Saint Germain, is the one

*the Elohim Victoria, twin flame of Arcturus

who sets the archetypal pattern for the seventh root race. This child of light, this Christmas child, is the evolution of the Christ Child Jesus unto the Manchild of the seventh root race. Look forward to his coming, and prepare for it. For the heavens tell the glory of the coming of the Son of God.⁶

The Christmas Light of All the Year

O light victorious, O light invincible, *invictus*,* I AM come! I AM here to emanate, to radiate, to set a forcefield of whirling sacred fire so that each one of you, each and all, may grow tall like the pine tree in the forest, with many branches for the birds of the air and the joyous singing of the sparrow and the dove as the Christmas light of all the year.

O my beloved hearts,
Earth can be transformed
Into a violet-flame Christmas tree,
And each one of you a sphere of light,
Each one of you with your own delight,
Your manifest design of snowflake
Or far, fiery star, star-fire light.

O beloved ones, the mighty rosary of light ringing around the Christmas tree is a blessed gift to Mother Mary as violet-flame beads of light tell the story of the giving of her Word.

See, then, how the lights are shining as the Christed ones. And let not all the pining of the world for death and dying, for yesterday and other year, deter you in this Revolution of Higher Consciousness. For the revolutionaries must move with violet spheres going before and rolling back.

Let Your Burden Be Light

The children of the light know not that they are programmed unto slavery. The fallen ones themselves, so numb, cannot know God, for no God is in them. And therefore the

**invictus*: Latin for "unconquered"

judgment precedes the birth of that mighty One.

I come descending from the Sun. I come to bless you in this hour. For in this hour of greatest light, the children of the light are called upon to balance the greatest darkness.

Let your burden be light. Let the magnificent radiance of the violet flame begin a mighty spiral of a new year. And let all who have ears to hear remember that the giving of your violet-flame decrees in this fourteen-day spiral⁷ will reap much benefit and produce a glorious resurrection light throughout this coming decade.

My beloved children of the Sun, I address you in the full momentum of freedom! By its sacred fire I seal you! And I seal you in the heart of Saint Germain. We gather together for the feast of light and we welcome those souls who will gather here to carry our light for the decade.

In the name of the holy Father, in the name of the blessed Mother, in the name of the beloved Son and the mighty Holy Spirit, I AM Arcturus, forever in the Great Central Sun.

"The Summit Lighthouse Sheds Its Radiance o'er All the World to Manifest as Pearls of Wisdom." This previously unpublished dictation by **Elohim Arcturus** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Sunday, December 23, 1979**, during the Sunday service at Camelot, Los Angeles County, California. **(1) It is a violet-flame tree that we see.** Arcturus may be referring to the Christmas tree in the Chapel of the Holy Grail at Camelot, likely decorated in violet. **(2) We deposit our light of violet flame.** In a lecture given on February 26, 1968, Mark Prophet explained that when invoking the violet flame "you qualify the violet fire as an electric, roaring violet flame pouring up through you, you see. It's your qualification and your visualization that make this real. Now, I did this one time, and at Christmastime we were in a room with a Christmas tree on, and I saw the violet flame and it became visible to everyone in the room, and the flame took on the appearance of streamers of violet fire descending. You know, curlicues . . . just falling all through the air. I mean physically visible! On this particular occasion you could see it—anyone in the room could see it." **(3) The keynote of the decade.** In his dictation on December 31, 1979, entitled "I Will Be in the Heart of the Little Child," Gautama Buddha released the thoughtform for the year 1980, which was the "Great Symbol of Life Begetting Life" appearing

as a mighty fiery figure eight. Suspended in the upper sphere is the universal Mother, and in the lower sphere is the image of the Manchild. For an excerpt of this dictation describing the thoughtform of the year, see "The Radiant Word," 1980 *Pearls of Wisdom*, vol. 23, no. 1. O Christmas Tree

O Christmas Tree,
Fair Christmas Tree,
You tell a sacred story!
O Christmas Tree,
Fair Christmas Tree,
You speak of Christ's own glory.
In wintry snows and summer sheen,
Your cheery leaves are always green.
O Christmas Tree,
Fair Christmas Tree,
You tell a sacred story!

O Christmas Tree,
Fair Christmas Tree,
A symbol of our Savior's birth,
O Christmas Tree,
Fair Christmas Tree,
You bring us hope and songs of mirth!
Our holy faith you flash with light,
As twinkling stars shine through the night.
O Christmas Tree,
Fair Christmas Tree,
A symbol of our Savior's birth.*
