The Sign of the Second Fourteen-Month Cycle

The Mission of the Illumined Crown of Life

O light from the heart of Luxor, infire these, my hearts, with the essential light of Mother. I AM Serapis. I have come to intensify light—the light that is love, the light that, like the wind and the fire and the storm and the rain, is relentless, pushing aside all in its path, consuming that which can be consumed, overriding that which must be overridden, and implanting the flame of God-victory in the earth.

Look up, ye sons of light! Look to the hillsides, the heavens, and look round about you. For within the sanctuary of grace and thy Godhood, there standing now—tall, firm, with eyes upon him—the mighty seraphim led by Justinus come. They come holding the cosmic cross of white fire, intense in its brilliance. This fire is at once the shield and the banner and the sign of those who conquer with light. The cosmic cross of white fire puts the demons to trembling, and the fallen ones go back into the night.

The seraphim, as legions of the LORD, have come and still are coming in numberless numbers. They bear the light of Alpha. They hold the balance of Omega. They appear in the earth at

the conclusion of cycles and at the initiation of cycles. They come and they form the lines, the endless lines that hold back the oncoming tide of darkness. Then again, by their mighty hearts there is released from Cosmos' secret rays the keys for acceleration and the judgment and the flushing out of darkness, that it might be consumed before it consumes the little ones. The LORD is with his people in the presence of his hosts. This activity of light shall now increase by the light of seraphim multiplied by our blessed Lord, the Maha Chohan.

And the rains came, and the rains have swept away the debris of centuries. They have cleared the path so that earth might be worthy to receive the seraphim, for they must place their golden sandals upon the earth beneath. And in touching the earth, there is a trembling through elemental life. It is the trembling by which the adjustments are made, and then the joy rippling through the earth seen as a sine wave, a sign of the oncoming wave of light.

We Inaugurate the Second Fourteen-Month Cycle

Thus, we inaugurate the second fourteen-month cycle.¹ You have seen the fury of the storm of the betrayers, which in fact was hardly a storm at all. You have seen witchcraft directed upon elemental life by the prayers of malintent of those who ought to do better because they know better. And yet elemental life is free and once again in the service of the Mother and her children.

You have seen life and death and transition. You have seen war and rumors of war and a false peace, and you have found the peace in the eye of the vortex. In the eye of the storm is the Word of God, "Peace be still, and know that I am God!"² So in this hour, as there is the shifting and the sifting of hearts, so there are shiftings in the astral plane. And so the earth beneath prepares for new cycles.

The second spiral of white fire, thrust as a coil from the

fiery core of the causal body of the Great Divine Director, thrusts out Cosmic Christ illumination. And the second ring of the causal body of God receives the impetus of Serapis Bey, Gabriel Archangel and Hope, Astrea, Purity, Justinus, seraphim, the Goddess of Purity, the Goddess of Light, the Queen of Light, legions of Purity, and all of the servants of the Holy Spirit.

Now there is the multiplication of Alpha and Omega in the fiery core of life as chelas unascended have multiplied, by their multiplication of the Word, the flame of the ascension and the resurrection flame of the Great Pyramid.

Thus, I AM the resurrection and the life of illumined action, of wisdom's rod, of the scepter of Cosmic Christ authority in the earth. And the Mother flame will rise in this fourteen-month spire, and the cosmic cross of white fire in the hands of millions of seraphim will be in the earth as the impetus for the purification of the mental belt, of the mind of God manifest in the mind of man. And it too will have consequences in the physical octave, for the purging of the mind becomes the purging of the subconscious mind and the lowering of the superconscious mind into the very chalice of the heart.

Thus the fount of purity rises from the base unto the crown for the alignment of purity and the victory of wisdom. Thus Father and Son, Mother and Holy Spirit, from the base chakra to the crown chakra, is the alignment of life within you. This is for the straightening of the axis of each individual upon Terra. Thus when illumination, fired by the rocket of the Mother flame, goes forth into the world, I say, *Watch out!*

Be watchmen upon the wall of the LORD. Be vigilant! For this white fire and this piercing light of yellow fire combine, then, to awaken all of the serpents in the earth and all of the laggard evolutions who have thwarted the divine plan of God. Once awakened, they are threatened. They are frightened. They lash out and lash back.

Illumination Is the Quickening Sacred Fire

Now boldly understand the use of your own seven bodies of light. Seven Lanellos stand before you as man upon man in a towering presence of cosmic victory. Behold your own soul, first in the line of seven bodies rising from where you stand, tier upon tier of light. See the towering figure of the person of the Christ that you are and fear not the Watchers and the fallen ones. Fear not the godless creation. For the towering presence of the sons of God is truly the majesty of love.

O my beloved, you have weathered the storm. Anticipate again these storms until the whole earth is saturated with ascension's flame from the white-fire core unto the heights. So layer upon layer, this is for the cleansing and the preparing of the earth body for the transition by the light of alchemy once again into the acceleration of the etheric consciousness.

O light of the sun of even pressure, O light in the fiery core of the atom, emit now the balance of Virgo and Pelleur, of Oromasis and Diana, of Neptune and Luara. Now send forth the light! Let the light of Aries and Thor penetrate and perpetuate the invincible cosmic consciousness, holding now and sealing that sacred fire that it be released according to God's divine plan.

I address elemental life in the flame of God Harmony. I command you, in the name of our Lord, Sanat Kumara: Hold the balance of life and the platform of evolution! Hold steady the earth body, the sea, and the very stars of light that are the nuclei of infinite particles of substance that is of God.

Let ascension's flame rise from the center. Let it proceed from the within to the without. Let it press out the golden pink glow-ray from the white-fire core of the sun of the earth, from the sun of Helios and Vesta. And lo, the cosmic chord does strike and the spiral begins in the

fiery core of the planets of this solar system, the physical planets, those on the astral belt, the mental belt, the etheric belt. Thus, the acceleration transpires and will continue as this solar system begins to turn as the pinwheel of light.

Light of ascension's flame—light of Alpha and Omega—reclaim earth and her evolutions, all evolutions of Helios and Vesta and the Manus of light for a higher dimension, for a higher apprehension of the consciousness of God.

Lo, I AM come. Acceleration is the key, and God himself turns the key in this operation of light. Lo, he said, "Behold, I will not leave you comfortless."³ The initiations of Serapis are the comfort of your soul. Now they accelerate.

Now in the cycle of the victory of Pisces, in the light of resurrection building unto the springtide of life, illumination is the quickening sacred fire. I send the initiates of Luxor on the mission of the illumined crown of life. I desire to see the children of God upon earth receive the enlightenment and the sword of truth.

Let truth go forth! Let error be exposed! Let our Mother's Manifesto⁴ ring, ring, ring throughout the earth! Let it ring the note of Reality.

Lo, I AM releasing the note that all will vote for Reality, Reality, and God-reality. Lo, I AM that Reality.

Let the Keepers of the Flame know of the thrust of Gautama and my own Maitreya, the Lord Jesus and Kuthumi. For the dance of the hours is the leaping of the golden light, whose heart is purity.

You Have Invoked Transmutation, and Transmutation It Is!

We send the light that descends as crystal fire mist to purify the minds and hearts of the called of God in the teaching profession and of the called of God who are parents or parents-to-be. I send forth a light of crystal fire mist for the penetration

of souls who are the guardians of youth and of children.

Angels from Luxor, angels from the retreats of illumination make their way. There are processions of angelic hosts and of pilgrims of the Maha Chohan who have heard the pronouncement of the Word and the exposure of the lie and the liars in the field of education worldwide. They are quickened! They see the light of Alpha and Omega! And they know that this is the signal of the LORD for change—change upon earth such as change has not been known before.

Mark you well, my beloved, what heaven holds in store for earth. You cannot invoke judgment or freedom or peace or light or love in the intensity that you invoke it without expecting planetary changes. Understand, then, that when a body of lightbearers gives forth the call, the call is heard. The galaxies respond. And earth can expect the changes that are coming.

Therefore, we look to the Lords of Karma to give the lightbearers that certain direction—so divine, so necessary for the adjustment of life itself—for the changes that must occur if God consciousness is to increase in the earth and if those conditions that are ungodly (having proceeded out of the consciousness of the ungodly) are to be removed and the cause and core behind them bound and cast into the sacred fire. You have invoked transmutation, and transmutation it is!

I Prepare Warriors for Life

I AM Serapis, devotee of Mother. I AM Serapis, lover of your soul, and therefore the disciplinarian preparing you for the Great Initiator.* Why do you think I have poured my love into the hearts of the faithful ones? Is it not because I too have read the handwriting on the wall?

I have read your karma! I have read the book of life! I know what is in store before it comes to pass! I have, after all, some expertise, some experience with life and the cycles of karma.

*Lord Maitreya is often referred to as the Great Initiator.

Through the door of my heart many have passed to the octaves of light and have long since taken flight for other cosmos. Yet I remain the lover of your soul because I love the Mother within you.

Therefore I discipline, and therefore the disciplinarian is always hated by the betrayer, by the Fallen One.* For discipline is the line that is drawn, and those who love not retreat from that line that I draw. In the center of the aisle is the line drawn, to the right and to the left. The chelas of Serapis assume the arms of the cosmic cross of white fire, and together we are the Tree of Life.

Why do I goad you to excellence, little ones? O teachers, do not indulge your students. Let them wail! Let them complain! For I know wherein lies the gain. I prepare warriors for life—life as it will be on earth during their entire embodiment. I know what is there and what there is to be, and therefore I see that the children of the world are not prepared for present, much less future, responsibility.

I must prepare the students of Montessori International.⁵ I must prepare the students of Summit University.⁶ I must summon you who come to Level I. Return if you dare to be the disciplined ones, if you dare to prepare for life and what life has in the offing. For ere the planet sees the dawn of victory and you see your own, my beloved, there is a road that must be traveled and there are rivers to be crossed and mountains to be scaled until the eye of the eagle becomes the eye of the star.

Veil the Eyes and Let Them Behold the LORD!

Meditate upon the star Sirius until the star enters the eye, and the eye enters the star. And by the Elohim Cyclopea, by the vision, by the image—eye magic of that Eye of God—there is the fusion of the disciplined one with the forcefield of the authority of the entire Great White Brotherhood.

*The Fallen One most often refers to Lucifer.

O starry world, O far-off world, O light of Sirius, descend! O penetrating ray, penetrate these eyes! For they have gazed too long on maya and illusion. Too long have their eyes been sponges for the impurities of life.

My beloved, look upon the calla lily, its freshness and its whiteness. Close your eyes and see the purity of the petal and see that white petal intensify and become a dazzling white fire, even a central sun. Feast your eyes upon that white fire, for the white fire will cleanse your eyes and remove the scales even from your outer vision.

O beloved, the soul suffers when you gaze upon impurity. Veil the eyes and let them behold the LORD! For the rays of cosmos in the heart of sun-fire systems are for the transfer of those secret rays essential to life, to the resurrection, and to the nourishment of body and soul.

How beautiful are the eyes of my chelas. I often gaze into your eyes as you meditate upon God. I gaze back at you from the white-fire Presence of the Chart.* My beloved, I often send a ray of purity into your eyes to purify the residue of substance in the rods and cones and cells and molecules. O my beloved, let the light of purity flow forth and return to the eyes and to the inner eye.

The crystal light is the balance of Cyclopea. Therefore I come in the feminine ray of crystal. I come, then, for the crystallization within you of the perception of life and for the feminine complement of the All-Seeing Eye of God.

I Have before Me the Records of Your Souls

Hosts of the LORD, chelas of the light, I have before me the records of your souls. I have offered to each one of you at Luxor in recent weeks a course of study, of discipline, and of service whereby the preparation that I would afford you through our Inner Retreat and through the care and love of

*the Chart of Your Divine Self

our messenger should bring you to the attainment in life where you might manifest an extraordinary design of your individual divine plan for community action, world service, and the fulfillment of the torch of the Goddess of Liberty whereby the spokesman of the Karmic Board made you guardians of the I AM Race and the incoming lightbearers during transition.

I have pondered—in the very heart of Helios and Vesta, even unto the fount of Alpha and Omega—your individual souls, your destiny, and present and future conditions to be outpictured upon earth. Therefore in my assessment of life in general and life in particular within your soul, I have seen what is necessary for you to feel that fulfillment at the conclusion of this incarnation, when you will come to Luxor and the council of initiates of the ascension flame will review whether or not all that the Karmic Board has assigned to you has been completed and therefore you may then enter the preparations for the soul's assimilation into the ascension flame.

Beloved ones, these considerations for your life are uppermost in my heart. For I see those who have come into incarnation with the opportunity to ascend to be the most vital links in the chain of life upon earth and to be the key individuals in the chain of hierarchy—individuals who are key, therefore, in laying the foundation of many paths that lead to the One, of many ways out of the astral dilemma, that labyrinth of dungeons and dragons and demons and discarnates. The children of the light ought not to attempt to make their way through, into, or out of that labyrinth without the chelas of Serapis Bey, without the seraphim and their fiery crosses of white fire.

Therefore in my office, holding the flame of the Great Pyramid, holding the door of the ascension, and holding the key to the Mother light midst the seven chohans, I would sponsor those who identify themselves and would be identified by us as candidates for the ascension. I would make the sign of the cross upon you and I would deliver to you an education of

excellence—incomparable training for life, integration with the Guru who is Mother.

We come, then. We come to prepare your consciousness. Consider now the future in the light of the present and prepare for the Goddess of Liberty, her coming and her address.⁷

With the sign of the golden flame of illumination, with the sign of the cosmic cross of white fire, I salute the Mother and the banner of the World Mother. I salute the initiates of Lord Maitreya, who value the discipline of Luxor.

This cycle was under the white band of the causal body, the fourth ray. The second fourteen-month cycle was under the hierarchy of Aquarius, the one o'clock line of the cosmic clock, which ran from February 19, 1980, to April 19, 1981. This cycle was under the yellow band of the causal body, the second ray. On January 27, 1980, Serapis Bey gave a dictation in which he said, "As the sun moves into the cosmic cross of illumination's flame under the hierarchy of Pisces on February 19, 1980, so we come to celebrate the conclusion of one set of

the fourteen stations and to inaugurate a second. This further intensification of the light of ascension's flame and of the path of the Mother within you is the dispensation of Sanat Kumara, which I joyously announce to you today." By 1972, Montessori International expanded to two preschool classrooms, with thirty-five children. In 1976, the school moved to Pasadena in fulfillment of Jesus' mission in "the New Jerusalem," the city of Los Angeles. Beginning in 1979, at Camelot in Malibu, California, Dr. Elizabeth Caspari, friend, student, and co-worker of Dr. Maria Montessori, conducted twelve teacher training courses over the next seven years. By the early 1980s, M.I. had nearly 250 students with fifty faculty members, and it remained in session at the Church's current headquarters at the Royal Teton Ranch in Montana until 1997. Plans are currently being developed to reopen Montessori International at the Royal Teton Ranch in the near future. (6) **Summit University**. In September 1973, the messenger Elizabeth Clare Prophet inaugurated the first full-time, twelve-week session of Ascended Master University at the Motherhouse in Santa Barbara, California. Mrs. Prophet taught three quarters per year. She explained that because the ascended masters desired to see the energies of the university program consecrated each week to one of the heavenly hierarchies, the university was expanded to twelve weeks. In the mid-1970s the university changed its name to Summit University. When it outgrew the Motherhouse, the university was held in Colorado Springs through spring 1976 and then settled at the Nazarene campus in Pasadena. In 1978 the organization moved to a beautiful campus located in the Santa Monica mountains in California and named it Camelot, where the Ascended Master University, or Summit University, was held. Camelot was also the international headquarters of the organization at that time. Starting in 1988, Summit University convened at the Royal Teton Ranch in Montana. Summit University is now offered as a five- or six-day seminar following the July conference at the Royal Teton Ranch (the Inner Retreat). Summit University also conducts seminars and retreats at different locations around the world. For more information visit SummitUniversity.org. Call for Illumination

In the name of the beloved Mighty Victorious Presence of God I AM in me, Holy Christ Selves of all earth's evolutions, beloved Sanat Kumara, Lord Gautama and Lord Maitreya, beloved Jesus and Kuthumi, beloved Lord Lanto and Confucius, the God and Goddess Meru, the seven mighty Elohim, the seven beloved archangels, the seven beloved chohans of the rays, beloved Guru Ma and Lanello, the entire Spirit of the Great White Brotherhood and the World Mother, elemental life—fire, air, water, and earth! I decree for the expansion of the pillar of Illumination's Flame over all schools, colleges, and universities of America and the world and in the hearts and minds of the children and youth of Aquarius:

1. Illumination's Flame flood forth today,
Set the course of youth in God's own way;
Take them by thy hand of love,
Move them by impulse from above.

Refrain: O Masters ascended who love God-Truth,
Make and keep our precious youth
Guided by thy star of love,
Dazzling perfection's snow-white dove.

2. Descend upon the world I pray,
Illuminate by Love's own ray;
Show mankind the need for action,
Unify all and cast out faction.
3. Cherished flame of Wisdom pure,
In faith, intelligence we endure;
Flow right through, O strength of God,
In protecting armor we are shod.
4. Oh, rise on our hearts' altars clear,
Beautiful golden flame so dear;
Passing through thy flame, I know
God's gift of Wisdom does now flow.*

And in full Faith. . .

*This decree is printed in the decree book *Prayers, Meditations and Dynamic Decrees for Personal and World Transformation* (#1778), p. 233, no. 20.04.
