There Are Temples to Be Built

Part 2

The Flame of Faith

Thus, the path of initiation leading to the ascension, which we have outlined for earth and her evolutions, has taken into consideration this setback brought about by the fallen ones and the vulnerability of the people due to their own karma of disobedience and disrespect for God's emissaries. It is written that without faith, it is impossible to please God.¹ This is true in the fundamental sense, but the principle has a corollary, and it has to do with the fact that individuals simply do not have the capacity to see God or to know God and therefore to please him from a higher perception.

Beloved ones, millions of angels have volunteered to keep the flame of faith in the earth so that faith would be the door by which the children of the light might pass to reunion with God. Without these angels, mankind, and even my very own, would be in far worse conditions today because of this manipulation [of the fallen ones]. Therefore I express in your name immense gratitude for the legions of Faith, of Archangel Michael and of all the archangels. Their compassion for this plight of humanity is great, and thus you can understand the mercy of God, which continues. For the Almighty is determined that his very own

children will not be judged prior to the removal of certain of the effects and of the conditions of manipulation.

Calls to the Great Central Sun Magnet and to Beloved Maximus

The hour, then, has come when gradually—by this electrode that we have placed, an electrode of light²—the children of the light and widening circles of humanity will begin to have new faculties of awareness and they will begin to cross over from linear vision to a spherical perception of life. This electrode can be amplified and multiplied by calls to the Great Central Sun Magnet and to beloved Maximus.³ Calls should be given for the removal from every child of God upon earth of the blocks and wedges placed between the heart chakra and the crown chakra and of the overlays of black magic on the throat and the third eye.

The people of earth indeed bear the burden of their own karma. But they bear a much greater burden, and it is of the fallen ones and extraterrestrial evolutions, who yet occupy the physical and astral planes and who are indeed a law unto themselves and represent no Godhead, neither by free will nor by our appointment.

They do come, as they have said, from very distant systems, but they are not of the hierarchy of the Great White Brotherhood and they do not penetrate the etheric plane. Their force-field of manipulation extends through the mental belt, through the astral sheaths of the planetary bodies, and to those who are in physical evolution because in physical octaves they have made their karma.

The Undoing of All Behavior Modification, Brainwashing, Programming, and Genetic Engineering

Now then, during the balance of the ten-year plan of Gautama, it is our desire that you should use the science of invocation to

call forth the eighth ray and to visualize the figure-eight flow between the heart and the crown chakra. The thoughtform of the Cosmic Mother and the Cosmic Christ Child⁴ can be superimposed, for we give preeminence to the Cosmic Virgin through Lady Venus, Mother Mary, and other lady ascended masters to keep the forcefield in the blessed head area and in the chakras of the head, to keep the flame of the image of the Christ made manifest.

Thus the throat, the third eye, and the crown, protected by the Mother, will be the flow of light activating and energizing the Christ consciousness through the threefold flame and the inner teacher. You will readily see that the Mother who is enthroned in the upper chakras is the Mother whose flame has risen in the temple of her children from the base chakra to the crown.

This Mother, then, is one with the Father, and so it is the white-fire/blue-fire sun that is now superimposed as the twin spheres of light over the head area and aura of the children of God. The white-fire/blue-fire sun of Alpha and Omega is a forcefield that is reinforced from this hour of the seventh anniversary of Lanello's victory by the twin causal bodies of the messengers. Thus they serve in the earth and in heaven to reinforce the light of Alpha and Omega for the victory of the children of the light, for the increase of the spiral of the electrode that is for the undoing of all behavior modification, brainwashing, programming, and genetic engineering that has been practiced upon this evolution for aeons upon aeons.

Now then, the causal bodies of the saints ascended and unascended, keyed by the messengers' causal bodies, will also reinforce the liberation of the planetary lifewave. It is the desire of the seven Holy Kumaras that this liberation should occur without major cataclysm. It is our desire to see transition take place into a golden age without the upheavals that have been planetary in scope in past changes.

However, the Holy Kumaras will not sacrifice the long-term goals for a short-range vision. The long-term goal is the golden age, the preservation of earth for her lawful and rightful root races, and the final judgment at the Court of the Sacred Fire of certain fallen ones whose cycles are spent. There is a cross-section of life and a sampling of life, as we have told you, from many planetary homes, thus making earth the pinpoint and the nexus of galactic Armageddon.

The Greatest Darkness Is behind You

Why do you suppose I should have selected Terra for our journey, for the commitment of aeons of light and love and devotion? And why do you suppose, beloved ones, that you would have left with me from the God Star and come, then, from Venus⁵ to be exiled here, not for a hundred years but for tens of thousands?

It is because ultimate decisions will ultimately come out of this experiment and this mission of salvation. From the beginning you have been prepared for this hour, and I will comfort you with the truth that the greatest darkness is behind you. You have come out of the darkness to which you came, and you now stand to inherit the fullness of that light, which was once your very own consciousness.

Some of you have lost through karma-making actions a certain portion of that light. But inasmuch as you did so in a mission for salvation, when you balance this karma and this cycle, that attainment will be returned to you as the attainment of the present becomes a magnet for previous attainment stored in the causal body. And when it is seen that in the present you have dominion through the God-harmony of your heart flame, you will realize that there will be a great multiplication of that dominion.

The essential relationship of Guru and chela is trust. We must know that you can be trusted with a greater power, wisdom,

and love, which dominion brings. Thus you gain your dominion by increments, and by increments it is multiplied. In the perspective of mainstream humanity and life upon earth, you are far in advance, though on the outer you easily compare yourselves to the people of the world. And this is for the very reason that I have stated—because you function in bodies that have the natural limitations of this evolution, and in addition the impairment of gross manipulation and the violation of God himself functioning through the genes and chromosomes.

Those Who Would Be Bearers of the New Race

I trust, my beloved, that the illumination I have brought will serve you in the coming months, that you will understand that as you live by faith and multiply faith, that faith in your heart will expand and expand and join the concentric spheres of the messengers and of the white-fire/blue-fire suns of Alpha and Omega, creating thereby a bridge of light twixt the chakra of the heart and the chakras above the heart. By this, then, bridge of faith, and by this meshing with these spheres, you in this lifetime have the opportunity of increasing the capacity of the very four lower bodies and the chakras themselves.

Pursuing this attainment, you may then bequeath it to those lifestreams who will come through you and who will occupy the vehicles that will be prepared for them through your lifestreams. Thus it becomes obvious that those who would be bearers of the new race set themselves apart in an inner retreat and give adequate attention to the four lower bodies, in the understanding that to a certain extent, and often to a very great extent, the incoming avatar is limited by the vehicles provided.

Thus, we look to this community to gain advantages for souls who are indeed worthy to embody upon earth. And also, my beloved, I would say that there are many children of the light now upon earth who have suffered the cross of the decreased capacities. They, in their souls and in their inner

communion with God, are also worthy of having these avatars on earth, but many of those children of the light could not provide or be adequate instruments for their coming. For this reason you have been a part of other communities in ages past where there has been an extraordinary dedication to the purification of all levels of being, and thereby you have been instruments of new lifewaves and even new root races.

These are the subjects that concern the Manus, the Kumaras, the Karmic Board. These subjects do not concern what you would call the ordinary run-of-the-mill religious people of the planet. They have other burdens and other karma. But when souls of light who have followed the light for centuries come together in the last days, they, like Noah and his family, must *indeed* be concerned with what is coming upon the earth and with the opportunity for life to be continuous in a higher form.

Freedom Is Ever the Highest Gift and the Highest Prize in the Race

I have not come to increase your burden but to lighten it. I trust, then, that my message brings you joy and freedom. But if any be burdened by the consideration of such responsibilities, let them be free. Let them know that I AM Sanat Kumara. And though there be some who follow the Lamb whithersoever he goeth, the Lamb also follows the sheep whithersoever they go. And I am in the heart of my sheep wheresoever they position themselves in the earth body, for I too understand the necessity for *lebensraum** and for the freedom to breathe free.

The path of initiation will continue for all who are obedient, loving, studious, and the self-disciplined ones. It may be shortened or lengthened by your positioning. But if you choose to lengthen the distance or to widen the spiral, as long as the conditions of chelaship are fulfilled you will remain under our grace. Thus freedom is ever the highest gift and the highest prize

**lebensraum* [German for "habitat"]: space required for life, growth, or activity; living space

in the race. The freedom that men realize is the freedom that they are able to perceive, and the prize they go after is one they can view. We have come to unveil a higher goal and a greater prize. All may position themselves to set their goals and determine their service.

We Have Set Our Seal to the Establishment of the Inner Retreat and the Inner Community

The call has gone forth, and we have set our seal to the establishment of the Inner Retreat and the inner community.⁶ Our word to the wise will be perceived at many levels. So be it.

I seal you in the heart of Lady Venus and in the heart of the twin roses. I wrap this message and this dispensation in a swaddling garment of light, in a sphere of light, that it may not be read or penetrated by those for whom it is not lawful that they should see or read or run with it.

I wrap this seminar and these dictations within a greater sphere of light. For all that has been said is for the blessing of Keepers of the Flame who are pursuing the path of the World Teachers and who esteem the value of becoming representatives of the Lord Jesus and the Lord Kuthumi.

I AM ever in the center of the rose cross.

⁶“The Summit Lighthouse Sheds Its Radiance o’er All the World to Manifest as Pearls of Wisdom.” This previously unpublished dictation by **Sanat Kumara** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Tuesday, February 26, 1980**, during the “Education of the Heart” seminar held at Camelot, Los Angeles County, California. Part 1 of this *Pearl of Wisdom* is published in this volume, no. 9. Any books listed in the following endnotes are published by Summit University Press and are by Mark L. Prophet and/or Elizabeth Clare Prophet unless otherwise noted. Books, audio, and video products are available at Store.SummitLighthouse.org. added for clarity in the written word.] (1) Heb. 11:6. (2) **An electrode of light.** See part 1 of this *Pearl of Wisdom*, p. 82. (3) **Calls to the Great Central Sun Magnet and to beloved Maximus.** Calls can be given to the Great Central Sun Magnet by giving decree 0.08, “Great Central Sun Magnet Invocation,” in *Prayers, Meditations and Dynamic Decrees for Personal and World Transformation*, p. 17. For calls to beloved Maximus, Mother Mary teaches that we can call to Maximus to ratify and maximize a previous victory on the world scene: “A victory can be magnified, can be multiplied, can be maximized through the heart of Maximus for maximum benefit to those individuals who as yet have not had the arcing of that externalization of the threefold flame that has brought about a victory in one area of the globe.” We can also maximize our calls when we pray for one another. For example, if we are praying for one son of God who is beset by suicide and the demons of suicide, we can maximize our prayers and call for all children of the light who are burdened by thoughts of suicide. God is infinite, and he can multiply himself a billion times over. The Great Central Sun Magnet has been defined as the magnet of the twin flames of Alpha and Omega, our Father-Mother God. The messenger has explained: “You can think of the Great Central Sun Magnet as the T’ai Chi of Alpha and Omega. It’s a tremendous sphere of energy. . . . That Great Central Sun Magnet is also anchored in your mighty I AM Presence. It’s the source that is tied to us very closely.” The cosmic being Maximus is the authority in the Sun behind the sun for the great Maxin Light, which is the first cause behind the effect, called the Cosmic Egg. (See *The Masters and Their Retreats*, pp. 217–19.) (4) **The thoughtform of the Cosmic Mother and the Cosmic Christ Child.** This thoughtform for the year 1980 is described by Gautama Buddha in *Pearl of Wisdom*, this volume, no. 1, pp. 10–11. (5) **You would have left with me from the God Star and come from Venus.** Sanat Kumara is referring to the God Star, Sirius, as the home base of lightbearers who traveled to Venus from Sirius with Sanat Kumara and then to Earth in support of Sanat Kumara’s mission. The messenger explained that “the God Star, Sirius, . . . is our native home in this galaxy. Sirius is a tremendous place. It’s a very real place. . . . Each day I’m aware of the fact of returning as a pilgrim to Earth from my home star [Sirius]. . . . And whether you’re a Venusian or Mercurian or what, you are from Sirius. The lifewave goes forth from there and it returns to there.” (6) **The establishment of the Inner Retreat and the inner community.** See *Pearls of Wisdom*, this volume, nos. 7 and 8.
